

Crisis Negotiation WIRELESS THROW PHONE SOLUTION

The first ever ultra-rugged wireless throw phone kit for law enforcement negotiations.

The Intrepid Wireless Throw Phone kit is a complete stand-alone platform for crisis negotiators that modernizes and simplifies your operations. Start negotiations in minutes, not hours. Create a secure communication between suspect and negotiator while collecting valuable intelligence with covert phone sensor collection.

**Fully mobile negotiation kit
that easily integrates into your
existing infrastructure or console.**

Select between front
and back camera

Ultra sensitive passive
audio detection

Single big button call
to the negotiator

The device is fully locked
down for suspect

Use custom Kydex case
to improve ruggedness
